 Go to settings

1. Go to Connections

2. Select Add eSIM

3. Select Use QR Code

Option 2

1.2. QR installation

4. Scan the QR code from your service provider

5. Tap Add and wait. The installation is complete, tap Done.

6. Your HelloRoam installation is complete, tap Done.

2 Activation

Activate only at your destination.

Option 1

2. Activation

1. Go to Connections

2. Select your HelloRoam eSIM India

3. Go to mobile networks and turn on Data Roaming

3 Confirm your connection

01

One way is to verify that the signal icon on the top bar of your phone has at least one bar.

02

Also, you can go to **Settings** → **Connections** → **Mobile networks** and select your **HelloRoam eSIM India** to verify that the **Data Roaming** toggle is on.

4 Any help needed?

Find answers to the most frequently asked questions. Also you can write to our 24/7 Customer Service line: support@helloroam.com

Can I install the eSIM without an internet connection?

To install the eSIM it is necessary that you have an Internet connection through a Wi-Fi network or cellular data that allows you to carry out the necessary configuration on your cell phone. For this reason, we recommend that you install it before you arrive at your destination.

Can I activate the eSIM without an internet connection?

To activate the eSIM, you do not need to have an Internet connection, since activating data roaming from your cell phone settings will activate the plan. We recommend that you activate as soon as you arrive at your destination so as not to consume your data plan ahead of time.

Why do I need internet to use the app?

Goodbye, roaming
